EDUCATION

- Pasundan University, Bandung
Informatics Engineering Student
2022 - Now
- Senior High School 1 of Sukabumi City
Mathematics and Sciences (MIPA)
2019 - 2022

PROFILE

I am Anissa Nursafitri, a passionate technology student from Bandung dedicated to expanding my knowledge in the digital world. I approach all my activities with structured learning methods, combining theoretical study with practical implementation, as I work to transform my curiosity into professional competencies. I'm particularly keen on connecting with like-minded communities and opportunities that will support my growth in the technology sector.

WORK EXPERIENCE

Informatics Engineering UNPAS NOW
Laboratory Assistant

- As a Laboratory Assistant, I supported students' hands-on learning in informatics engineering by providing guidance on projects, software, and equipment, directly contributing to the lab's educational mission.

Google Developer Group on Campus UNPAS 2024-2025
Secretary of GDGoC UNPAS

- As Secretary of Google Developer Group (GDG) at UNPAS, I handle organizational administration, coordinate tech events and workshops, and facilitate collaboration between team members and external partners. My role focuses on supporting community initiatives to promote technology education and developer skills.

Informatics Engineering Student Association 2024-2025
Secretary of PSDM Department

- Responsible for member development through structured recruitment, skills training, and performance evaluation programs. Key initiatives include leadership workshops, technical bootcamps, and mentoring systems to enhance organizational capabilities.

Google Developer Student Club 2023-2024
Event Manager Department

- As Secretary and Event Manager at Google Developer Student Clubs (GDSC), I plan and execute large-scale tech events including workshops, seminars, and study jams, attracting participants both from within and outside the university.

Informatics Department Orientation Committee 2023-2024
Publication, Design & Documentation Division

- The Publication, Design, and Documentation (PDD) Division is responsible for creating promotional materials, managing content distribution.
